

Erythrosin extra bluish, for microscopy (Bact., Hist.), adsorption and fluorescent indicator

Erythrosin extra bluish, for microscopy (Bact., Hist.), adsorption and fluorescent indicator

Identificativi Prodotto

Reference: 45690-10G-F

Descrizione

Dati Tecnici

CAS Number: 16423-68-0

Molecular Formula: C₂H₆I₄Na₂O₅

Purity Grade: for microscopy (Bact., Hist.), adsorption and fluorescent indicator

Molecular Weight: 879.86

Shipped on ICE/no ICE: STD

SAP Pack with Pack Qty: 1X10G
