

Bluo-Gal, reagent for selection of recombinant bacterial clones

Bluo-Gal, reagent for selection of recombinant bacterial clones

Identificativi Prodotto

Reference: B2904-100MG

Descrizione

Dati Tecnici

CAS Number: 97753-82-7

Molecular Formula: C₁₄H₁₆BrNO₆

Purity Grade: reagent for selection of recombinant bacterial clones

Molecular Weight: 374.18

Shipped on ICE/no ICE: STD

SAP Pack with Pack Qty: 1X100MG

Storage Temperature: -20C
