

Fluorescein diacetate, used as cell viability stain

Fluorescein diacetate, used as cell viability stain

Identificativi Prodotto

Reference: F7378-25G

Descrizione

Dati Tecnici

CAS Number: 596-09-8

Molecular Formula: C₂₄H₁₆O₇

Purity Grade: used as cell viability stain

Molecular Weight: 416.38

Shipped on ICE/no ICE: STD

SAP Pack with Pack Qty: 1X25G

Storage Temperature: room temp
