

Neuraminidase from *Vibrio cholerae*, Type II, buffered aqueous solution, 8-24 units/mg protein (Lowry, using NAN-lactose)

Neuraminidase from *Vibrio cholerae*, Type II,
buffered aqueous solution, 8-24 units/mg
protein (Lowry, using NAN-lactose)

Identificativi Prodotto

Reference: N6514-1UN

R = oligosaccharides, glycoproteins, glycolipids, colominic acid and
synthetic substrates such as 2'-[4-Methylumbelliferyl]-, 5-Bromo-4-
chloro-3-indolyl- and 2-O-(p-Nitrophenyl)- α -D-N-acetylneuraminic acid

Descrizione

Dati Tecnici

CAS Number: 9001-67-6

Purity Grade: Type II, buffered aqueous solution, 8-24 units/mg protein (Lowry, using NAN-lactose)

Shipped on ICE/no ICE: STD

SAP Pack with Pack Qty: 1X1UN

Storage Temperature: 2-8C
