

Picrylsulfonic acid solution, 5 % (w/v) in H₂O, BioReagent, suitable for determination of primary amines

Picrylsulfonic acid solution, 5 % (w/v) in H₂O,
BioReagent, suitable for determination of
primary amines

Identificativi Prodotto

Reference: P2297-10ML

Descrizione

Dati Tecnici

CAS Number: 2508-19-2

Molecular Formula: C₆H₃N₃O₉S

Purity Grade: 5 % (w/v) in H₂O, BioReagent, suitable for determination of primary amines

Molecular Weight: 293.17

Shipped on ICE/no ICE: STD

SAP Pack with Pack Qty: 1X10ML

Storage Temperature: 2-8C
