

Tetrazolium Blue Chloride, used in colorimetric determination of reducing compounds

Tetrazolium Blue Chloride, used in colorimetric determination of reducing compounds

Identificativi Prodotto

Reference: T4375-1G

Descrizione

Dati Tecnici

CAS Number: 1871-22-3

Molecular Formula: C₄H₃Cl₂N₈O₂

Purity Grade: used in colorimetric determination of reducing compounds

Molecular Weight: 727.64

Shipped on ICE/no ICE: STD

SAP Pack with Pack Qty: 1X1G

Storage Temperature: room temp
